G SERIES

105-145 HP

VALTRA

YOUR WORKING MACHINE

WE WORK HARD TO MAKE HARD WORK EASY

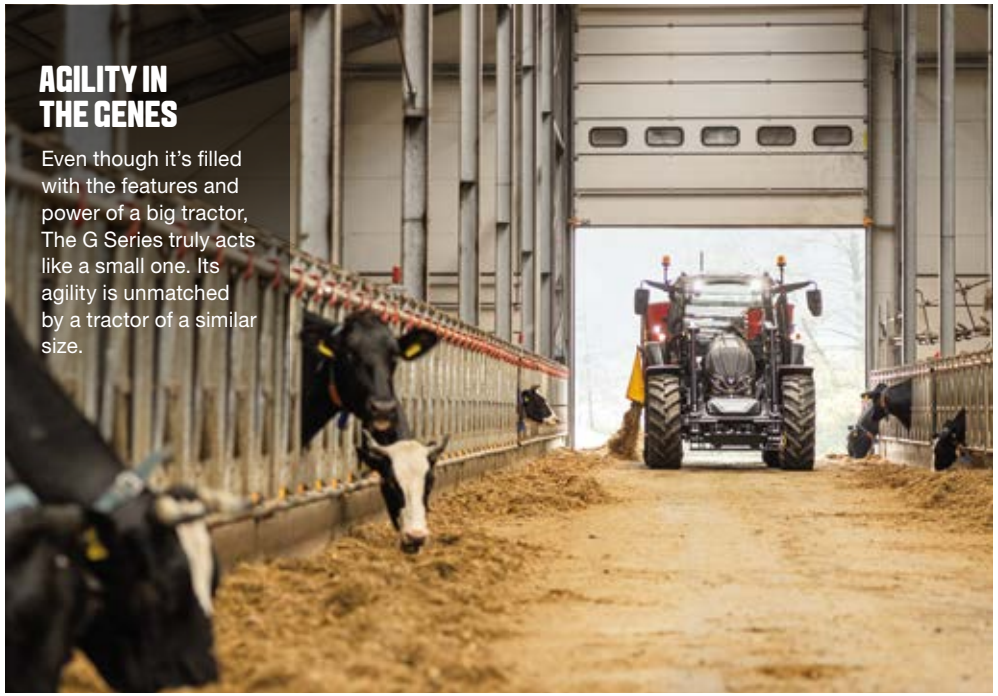

At Valtra, our main focus is to know our customers, understand their needs, and provide them with the best tractor experience. Our freshly updated G Series is the latest answer to our customers' demands. It's a small and compact all-rounder, just get in and get to work!

Form follows function. At Valtra, it's as simple as that. This is the backbone and design philosophy behind every machine we make. For the G Series, this means a compact machine and a strong design concept. It's the best choice when you don't need a big machine but an uncomplicated, agile, and robust one. With the power level you need, the G Series is as compact as possible for a highly efficient 4-cylinder tractor. Valtra is a pioneer in developing and tailoring easy-to-use tractor solutions for a wide range of applications. Our mission is to help our customers' businesses grow by maximising their return on investment. The Valtra G Series is now even better than ever by offering Continuously Variable Transmission (CVT) technology. Get your work done even more easily and comfortably, with peace of mind.

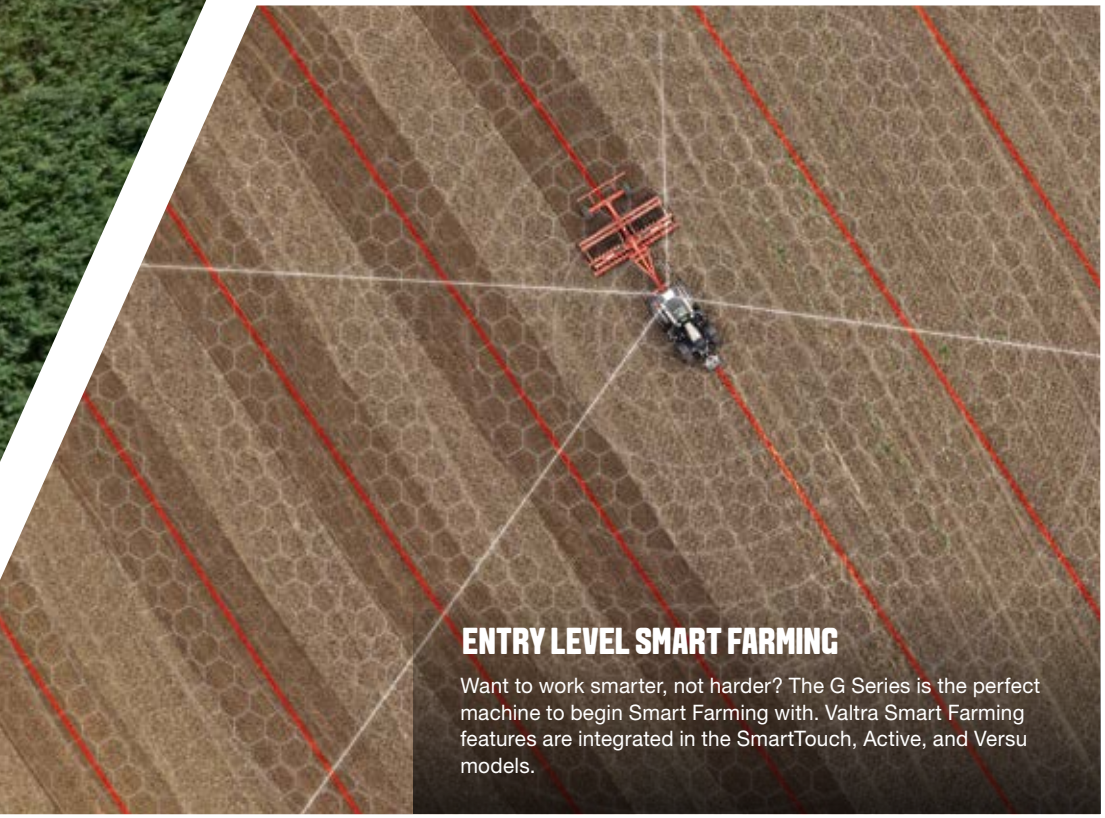

THE SWISS ARMY KNIFE

The G Series is the true multi-tool of the tractor world. While compact in size, it's packed with powerful hydraulics, easy-to use Smart Farming features and the power for implements of various sizes.

AGILITY IN THE GENES

Even though it's filled with the features and power of a big tractor, The G Series truly acts like a small one. Its agility is unmatched by a tractor of a similar size.

ENTRY LEVEL SMART FARMING

Want to work smarter, not harder? The G Series is the perfect machine to begin Smart Farming with. Valtra Smart Farming features are integrated in the SmartTouch, Active, and Versu models.

THE FRONT LOADER MASTER

Thanks to the integrated front loader subframe, electronic control, and 5.7 m2 of glass area offering great visibility, the G Series is the perfect machine for front loader work.

THE VALTRA G SERIES – AS EASY AS IT GETS!

The new Valtra G Series combines power, agility and intelligence in one easy-to-use and compact package. Whether in the field, in the yard, or on the road, the G Series is your easy-going working machine for seamless and stepless efficiency.

1. GO
EASY ACCESS

Easy and safe entry and exit to the cab and wide, self-cleaning steps.

2. SEE
SPACE AND VISIBILITY

A comfortable cab with plenty of room for two people and great visibility to all directions, including a large roof window. The cab's total glass area is 5.7 m^2.

No matter the task, the G Series is the fully-featured, multi-purpose tractor for your everyday needs. All models have a strong power lift and effective hydraulics. The HiTech (Powershift) model offers open-centre hydraulics, while all other models feature a closed-centre/load-sensing system. Working with fully-featured hydraulic implements is easy and quick, thanks to the simple user interface with an electric joystick, and high hydraulic pump capacities (100/110 l/min) for both Powershift and CVT models.

With Valtra's option packages, you can easily and cost-effectively modify your tractor to fit your needs.

3. DRIVE
SMOOTH START TO DRIVING

The Valtra shuttle enables a smooth and safe start wherever you go and whatever you do. The automatic powershift or CVT accelerates your work.

COMPACT AND VERSATILE

Compact dimensions like a maximum height of only 2.8 m and a weight of above 5 tons, make for a fully-featured, versatile tractor suitable for a variety of tasks.

CONTROL

All G Series models are controlled via Valtra's ergonomic and easy-to-use armrests.

FULLY-FEATURED IMPLEMENT CONTROL

The right power, great visibility, and an ergonomic, work-oriented user interface enable you to work the way you want.

FARM SMART

The level of technology you need. No more. No less. Our user-oriented technology features, like Valtra Guide, are easy to use and increase your productivity.

AUTOMATE

Save fuel and cut the stress. Valtra transmission automatics are easy to use and save fuel, no matter whether you're using a Constantly Variable or Powershift transmission.

WORK SAFE

Quick service checks to start the day, and a 600-hour or more service interval keeps you working safer for longer.

THE FRONT LOADER MASTER

You wanted a front loader specialist, and now you've got it. The G Series offers great visibility of the loader implement and easy state-of-the-art precision electric control. Whether you need to load manure fast or move a pallet with care, the integrated armrest joystick provides quick and precise control over your work. Compact and agile, yet impressively stable, the Valtra G Series offers you a complete, factory-fitted heavy-duty loader tractor that's built to perform- just get in and get to work. The new CVT model takes your frontloader tasks to another level.

1. Exceptional visibility with full, unobstructed view of your tools and surroundings.
2. Panoramic roof window offering outstanding forward visibility all the way up.
3. Intuitive Valtra ARM or SmartTouch interface for precise, effortless control.
4. High-performance load-sensing (LS) hydraulic system delivering up to 110 l/min flow for demanding tasks.
5. Hydraulic assistant for even more efficient operation -an automatic hydraulic boost.
6. Remote tool locking for fast tool changes. Available for all models.
7. Curved parallel lift rods that seamlessly follow the tractor's bonnet line for enhanced aesthetics and functionality. Fully enclosed pipework for a sleek and durable finish.
8. Quick and easy Lock-and-Go system for fast loader attachment and detachment.
9. Optional Live 3 function for advanced hydraulic control and flexibility.
10. Integrated heavy-duty subframe for maximum strength, stability, and loader performance.

YOUR SMART TECHNOLOGY BUILT IN

Valtra Smart Farming is a set of technologies that work seamlessly together – Valtra Guide, ISOBUS, Section Control, Variable Rate Control and TaskDoc®. A key design principle of our technology solutions is the ease of use.

All smart functions can be controlled from our unique SmartTouch armrest with just two taps or swipes. A better quality of life is at your fingertips – literally.

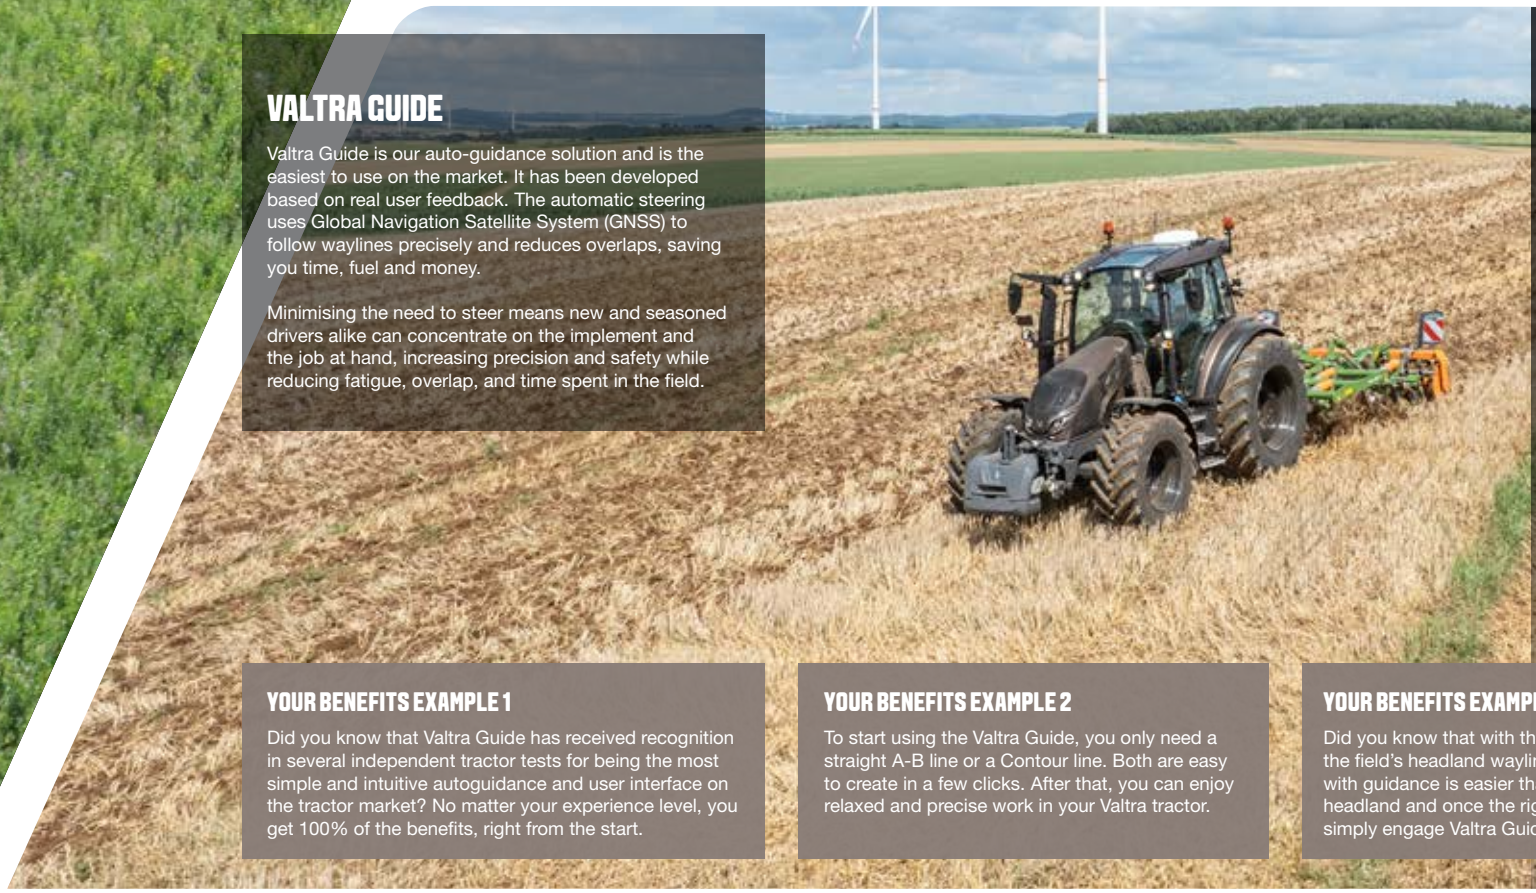

Valtra Guide helps to improve efficiency, reduce overlap and enhance operator comfort, whatever the farm size.

Valtra's famous easy-to-use Smart Farming solutions are available in SmartTouch, Versu, and Active models.

VALTRA GUIDE

Valtra Guide is our auto-guidance solution and is the easiest to use on the market. It has been developed based on real user feedback. The automatic steering uses Global Navigation Satellite System (GNSS) to follow waylines precisely and reduces overlaps, saving you time, fuel and money.

Minimising the need to steer means new and seasoned drivers alike can concentrate on the implement and the job at hand, increasing precision and safety while reducing fatigue, overlap, and time spent in the field.

VALTRA GUIDE + WAYLINE ASSISTANT

With Valtra Guide, recording and configuring waylines and field boundaries is easy. By precisely configuring waylines and accurately sticking to them, total soil compaction is reduced, improving soil health and yields. Wayline Assistant adds the wayline types Segmented Wayline and Single Contour to the existing wayline types. Operators benefit from flexible wayline recording options, including segment recording and field boundary generation. Single Contour is ideal for crops like asparagus or strawberries planted without a guidance system. It consolidates all tracks into a single wayline for efficient crop care and uses automatic turning manoeuvres for optimised operation.

YOUR BENEFITS EXAMPLE 1

Did you know that Valtra Guide has received recognition in several independent tractor tests for being the most simple and intuitive autoguidance and user interface on the tractor market? No matter your experience level, you get 100% of the benefits, right from the start.

YOUR BENEFITS EXAMPLE 2

To start using the Valtra Guide, you only need a straight A-B line or a Contour line. Both are easy to create in a few clicks. After that, you can enjoy relaxed and precise work in your Valtra tractor.

YOUR BENEFITS EXAMPLE 3

Did you know that with the Wayline Assistant, the tractor can recognise which of the field's headland waylines it is actually operating on? Working the headlands with guidance is easier than ever before. Just steer the tractor towards the next headland and once the right segmented wayline is chosen by the Wayline Assistant, simply engage Valtra Guide, and off you go with the automatic steering engaged.

VALTRA GUIDE + AUTO U-PILOT + SMARTTURN

Together with Valtra Guide and Auto U-Pilot, Valtra SmartTurn fully automates your field driving experience for less stress, reduced soil compaction, better fuel economy and improved efficiency. Consistent turns enhance the precision of tasks when used in conjunction with other Valtra smart farming technologies. Choose from four turning patterns including U Turn, Part-field Mode, K Turn, and Y Turn.

VALTRA SMART FARMING TECHNOLOGY ADDS UP

Valtra's smart farming technologies work seamlessly together – Valtra Guide with its' additional modules like Wayline Assistant, are there to make the tractor operation as easy and precise as possible. When these are combined with the ISOBUS features; Section Control, Variable Rate Control, and TaskDoc Pro, which in turn further enhance the accuracy, profitability, sustainability and data management, you will have the possibility to tailor your G Series tractor to fit your current and future SmartFarming needs in the best possible way. All smart farming features are controlled smartly and simply from the SmartTouch user interface. Task files can be stored in the terminal so that it only takes a few swipes and taps to start tasks. Your dealer has expert smart farming knowledge and is there to make sure your smart farming features are set up and running.

DATA EXCHANGE

TaskDoc. and TaskDoc Pro make managing tasks easy. Save time setting up tasks and get straight to work. When done, have all the data you need for easy reporting.

VALTRA CONNECT

Valtra Connect is our telemetry solution that records tractor activity and GPS movements, all the time. It can display history and real time data on your mobile device and you can access the data anywhere, anytime. Using this data, you and your Valtra service partner can anticipate maintenance needs, and react faster to solve minor issues and avoid extra visits to your authorised service centre. Connect is standard on the Versu and optional for the HiTech and Active models.

FIRST **5 YEARS** FOR **FREE** WITH VERSU AND SMARTTOUCH

AGCO telemetry for customers
Fully customer and user driven user experience.

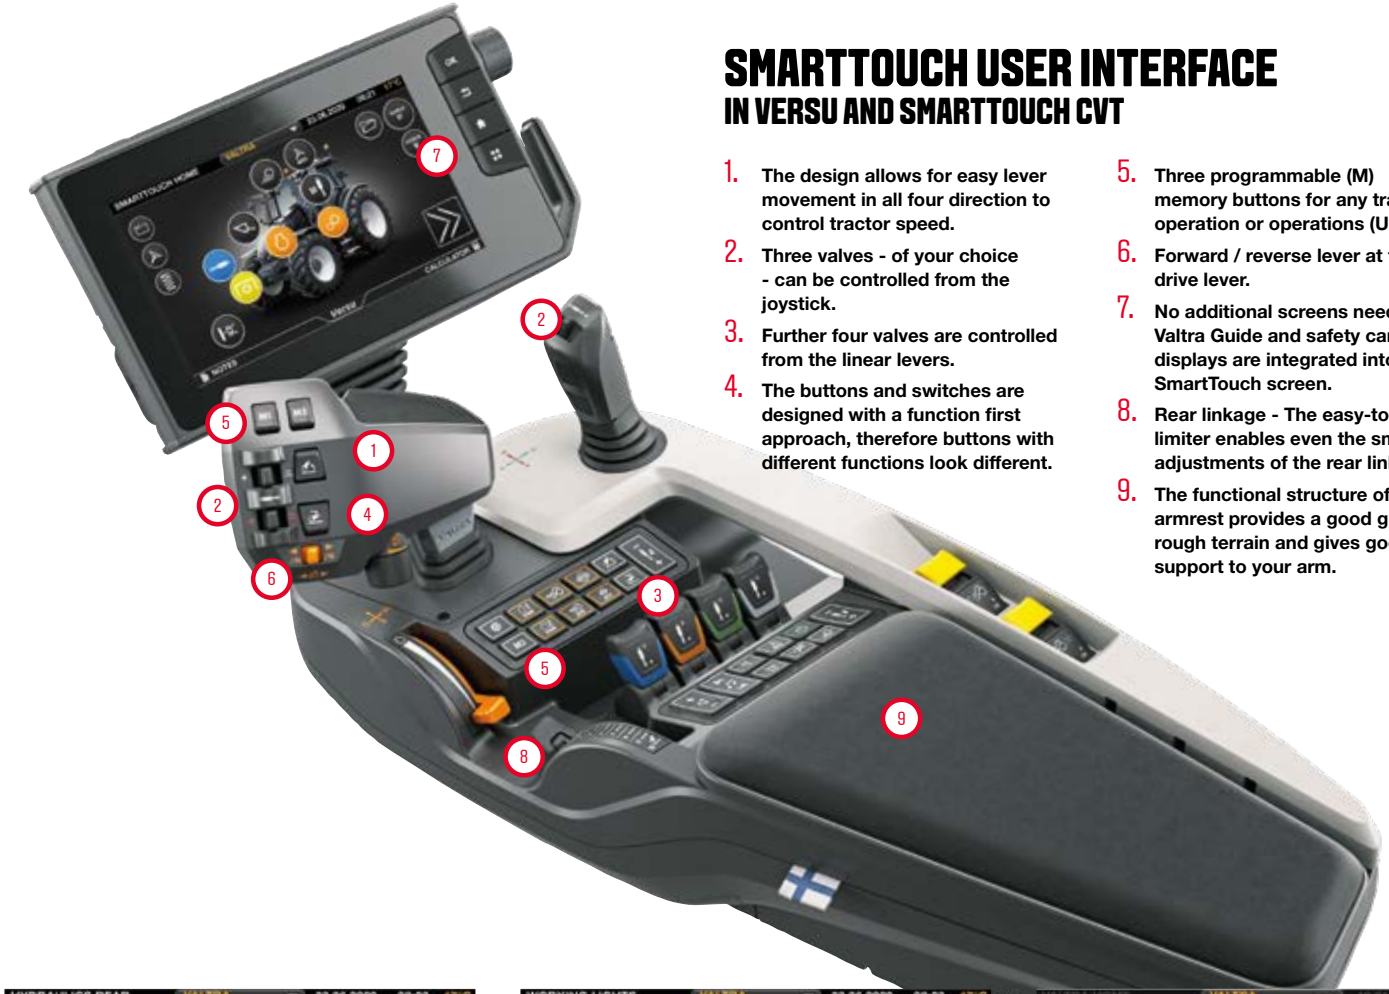

VALTRA + ISOBUS

Valtra SmartTouch gives you the high level of control that precision farming demands. With Valtra SmartTouch and ISOBUS, you can work with any ISOBUS-compatible implement, from any manufacturer, thanks to the ISOBUS standard ISO 11783. SmartTouch lets you connect implements to the terminal quickly with "Plug and Play" simplicity so that all the relevant machine data is uploaded to the terminal immediately. No additional screens or terminals are needed so your operating environment stays nice and tidy.

VALTRA SECTION CONTROL

With Section Control your tractor and your implements are precisely and automatically controlled to deliver the optimum seed and fertiliser rates to each part of each field. This helps you reduce input costs, improve yields and maximise your profits.

SMARTTOUCH USER INTERFACE
IN VERSU AND SMARTTOUCH CVT

1. **The design allows for easy lever movement in all four direction to control tractor speed.**
2. **Three valves - of your choice - can be controlled from the joystick.**
3. **Further four valves are controlled from the linear levers.**
4. **The buttons and switches are designed with a function first approach, therefore buttons with different functions look different.**
5. **Three programmable (M) memory buttons for any tractor operation or operations (U-pilot).**
6. **Forward / reverse lever at the drive lever.**
7. **No additional screens needed - Valtra Guide and safety camera displays are integrated into the SmartTouch screen.**
8. **Rear linkage - The easy-to-use limiter enables even the smallest adjustments of the rear linkage.**
9. **The functional structure of the armrest provides a good grip on rough terrain and gives good support to your arm.**

Easy menu navigation.

The 9” touchscreen, large controls, settings and functions are easy to understand.

You can assign any control to operate any hydraulic function, including front and rear hydraulic valves, front and rear linkages and the front loader.

It’s easy to configure the work lights using the 9” touchscreen. There are also on/off buttons for the work lights and beacon in the armrest.

Profiles for operators and implements which can be easily changed from any screen menu. All the setting changes will be saved in the selected profile.

Many of the functions can be set in a similar way from the dashboard in Active models.

UNBEATABLE VALTRA TRANSMISSIONS

Unlock the perfect blend of smart efficiency and powerful performance with Valtra's CVT transmission. The advanced control system automatically adjusts engine and transmission settings to maximise fuel economy—so you get more done with less effort.

With SmartTouch, you have two intuitive driving modes: lever or pedal. Simply set your target speed using either, and the transmission takes care of the rest. On the road, the pedal mode combined with cruise control offers unmatched comfort and ease. In the Active model, lever mode is not available, but you can use pedal driving and cruise control with two independent cruise slots for added flexibility.

When engine speed begins to drop under load, the control system responds instantly—boosting engine revs and adjusting the transmission ratio to maintain optimal performance. And when conditions allow, it automatically lowers engine speed again to save fuel without compromising productivity.

You can fine-tune how actively the system responds using the droop setting, which determines how far engine speed may drop before the transmission shifts down. For typical road and work conditions under medium load, efficient operation is maintained at a steady 1500–1600 r/min.

Valtra has the smoothest Powershift transmission on four wheels. The 6-speed Powershift gives you excellent work speed possibilities. Working in AUTO 1 ensures you always get the best fuel economy as it automatically shifts based on your acceleration and torque requirements. Changing between automatic and manual models is extremely easy. For simplicity, you can use factory settings or tailor your shifting to your own needs using AUTO 2. There's even a hill hold function integrated into all G Powershift models, making hill starts easy.

SMARTTOUCH

- Controls either the 6-step powershift (Versu) or SmartTouch CVT.
- Load-sensing hydraulics with electric spool valves
- U-pilot Headland management.
- SmartTouch armrest with touch screen

HITECH

- Armrest control for the 6-step powershift.
- Open Center hydraulics with mechanic spools valves
- Optional electric front valves and ON/OFF

ACTIVE

- Armrest control either for the 6-step Powershift or Active CVT.
- Load-sensing hydraulics with mechanic spools valves
- Optional electric front valves and ON/OFF

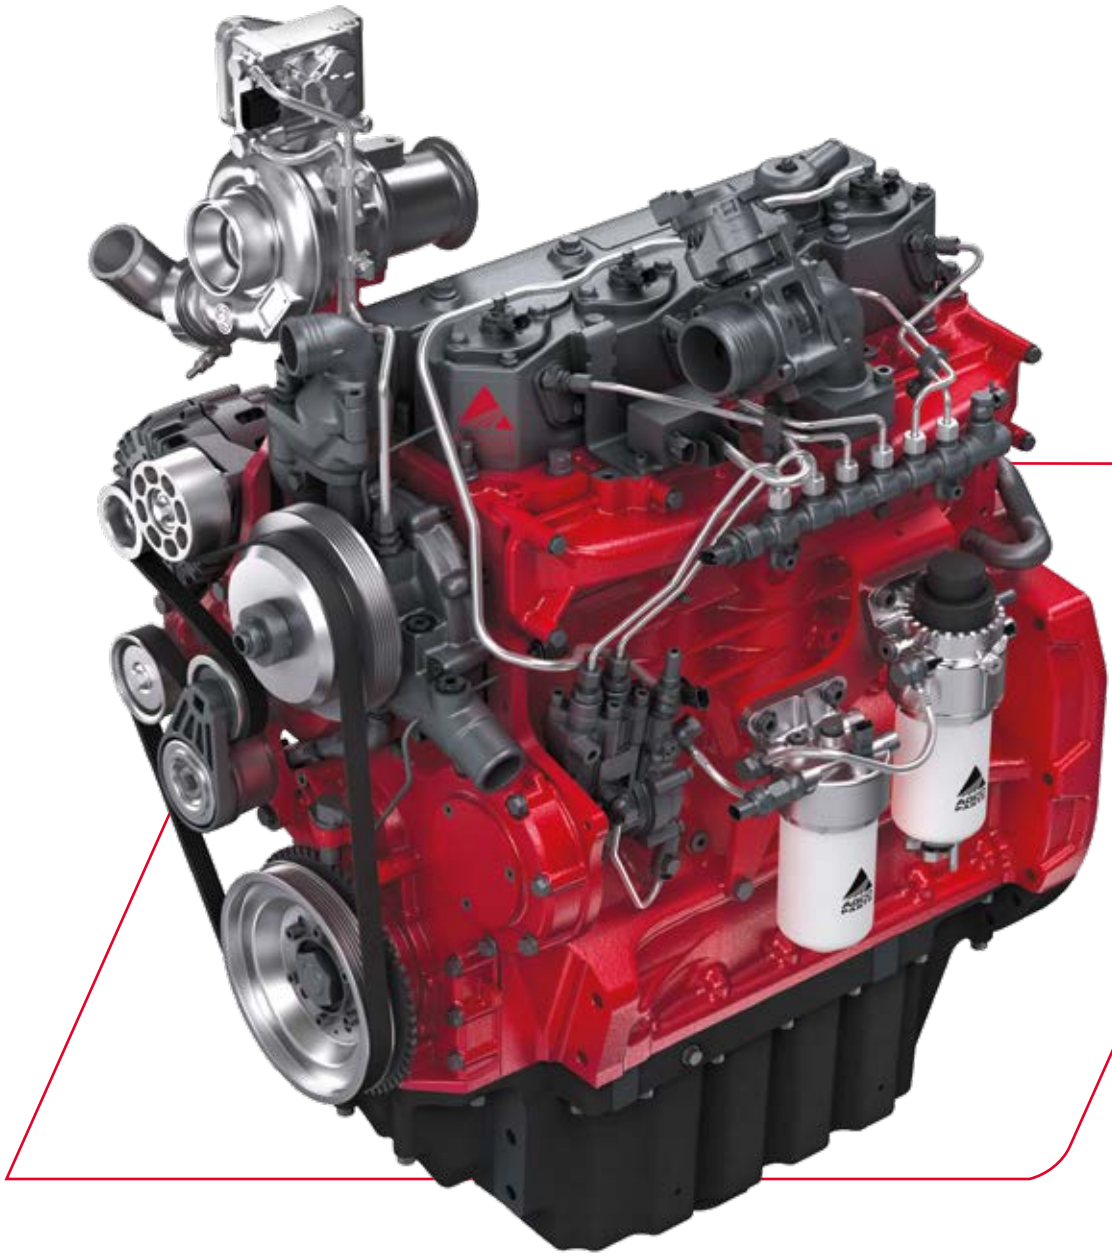

NEW STAGE V COMPACT ENGINES

The G Series is built from the ground up as a 4-cylinder tractor

Utilising 75 years of experience, Agco Power engines offer great power and torque features. The G Series's low bonnet and great visibility are enabled by the small dimensions of the compact 4.4 L engine.

The compact all-in-one engine after-treatment system is located under the cab, ensuring an open field of visibility while cleaning the exhaust according to Stage V standards. A raised engine air intake allows clean, cold air to easily enter.

YOUR BEST TRACTOR EXPERIENCE

You work hard. You operate in challenging and diverse environments, running five jobs at once, putting in long hours and hauling distances. It's our job to make your tractor experience the best it can be. Our easy Connect, Care & Go service concept offers unrivalled practicality that eases the daily operation and maintenance without adding costs for the owner. The best tractor experience is not just the machine, or the moment you purchase it – we, our partners and our vast dealer network are here to help you through the whole lifecycle of your tractor.

PEACE OF MIND. IN YOUR HANDS.

We believe in a seamless connection between our customers, dealers, machines and the Valtra factory. When connected you can select the desired service and warranty packages to meet your expectations and requirements. We take care of you, so you can take care of your business.

CONNECT

TRACTOR DATA, INFORMATION AND SERVICES.

STAY CONNECTED ANYWHERE, ANYTIME

By choosing Valtra, you are connecting with a team of professionals who help you make the most of your business. You can contact your local support through our online customer portal, which also gives you 24/7 access to tutorials, contractual information and services around your machines. The Valtra Connect telemetry solution records tractor activity and GPS movements, all the time. It can display history and real-time data on your mobile device, and you can access the data anywhere, anytime. Using this data, you and your Valtra service partner can anticipate maintenance needs and react faster to solve minor issues and avoid extra visits to your authorised service centre.

CARE

FACTORY EXTENDED WARRANTY.

TOTAL PEACE OF MIND

With Valtra Care extended warranty contracts, you can find ultimate peace of mind and security against additional repair costs of non-wearing parts. Care allows you to set your overheads when you purchase your Valtra tractor, or when the standard warranty expires. They are flexible, offering three excess levels – 0€, 290€ or 590€ and are available up to 5 years or 6,000 hours.

GO

MAINTENANCE CONTRACT.

MAXIMISE YOUR UPTIME

Fix your costs at the point of purchasing your Valtra machine and ensure optimum performance while guaranteeing efficiency and maximising the residual value of your machine! Valtra Go service contracts ensure regular and thorough maintenance, which will prolong the reliable operation of your Valtra tractor. Maintenance costs are small compared to repair costs resulting from a lack of maintenance. The Valtra Go service package includes all prescribed maintenance work bookable up to 10,000 hours for new and used machines.

FINANCIAL STABILITY WITH COST CONTROL

No two farms are exactly the same. They each have unique features and individual challenges. That is why we offer a flexible solution to help you stay on top of your costs.

A farm's cash flow can often be unpredictable and affected by many external factors. Seasons are different and prices vary, so staying on top of finances can be tricky. To be successful and have peace of mind, you need financial stability and full control of your costs.

Machinery and equipment are both a vital part and a major expense for any farm operation. You need different solutions for different situations, such as flexible models of ownership.
Financing a Valtra machine is now easier and more flexible than ever before. With the Rent, Buy, Lease programme offered by AGCO Finance, we are able to build a financing solution to meet your needs.

Together with Connect, Care & Go, it is the best way to keep your business cost-effective and stable.

AGCO FINANCE

YOUR OWN VALTRA DEALER

Your Valtra dealer represents the best tractor and implement expertise in your area. They understand the technical aspects of your tractor and the challenges you face. You can always turn to your dealer and receive the best service from consultancy, maintenance, repair and spare parts to the purchase of a new piece of equipment. Valtra dealers are independent entrepreneurs. AGCO audits its dealer representatives each year to ensure that you get the best possible service.

GENUINE PARTS AND HIGH QUALITY ACCESSORIES - ALWAYS AVAILABLE

Valtra's comprehensive spare parts service supplies the parts you need – as fast as by the next morning. This helps you keep your tractor productive during the busy ploughing and harvesting seasons. The AGCO Parts label ensures that you are getting original Valtra spare parts that have been thoroughly inspected and tested.

AGCO MAKES THEM UNBEATABLE, WE MAKE THEM AFFORDABLE.

At AGCO Finance, we tailor your personal finance solution based on your cash flow and operation. Tell us how much you can afford on a monthly basis, and we will create a flexible payment schedule according to your business needs, taking seasonal variations into account.

As a full-service provider, we also offer financing services such as leasing, rental options, and insurance. Our services may vary between countries, so please check our website or your nearest dealer for available offerings.

VALTRA TEAM

Valtra Team is our customer magazine, published twice a year. Each issue contains useful information about the latest innovations and the most efficient working methods. You can also access the magazine's archives online and read articles dating back to 2000.

AGCO ACADEMY

Tractors and related technologies, especially precision farming technologies, are developing at a rapid pace. The Valtra Academy continuously trains Valtra dealers and service technicians, so that the firstclass and up-to-date expertise that you get from your Valtra dealer today will continue to meet your needs in the future.

VALTRA COLLECTION

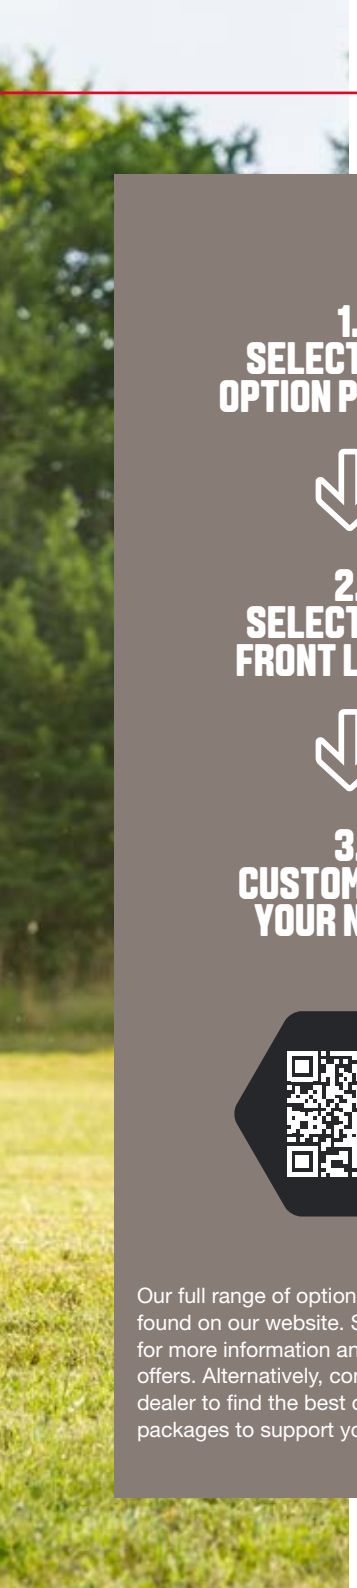

The Valtra Collection offers high-quality clothing and accessories for work and leisure. The materials and details are carefully selected. The clothing reflects Valtra's modern design language, with light, yet extremely durable materials that combine style and functionality.

CUSTOMISATION MADE EASY

Building your working machine with Valtra is an experience in itself. We offer hundreds of different accessories and options to choose from, adding up to an infinite number of different combinations. Because picking and choosing can be difficult, we offer cost-effective option packages to help you with decision-making.

1. SELECT YOUR OPTION PACKAGE

2. SELECT YOUR FRONT LOADER

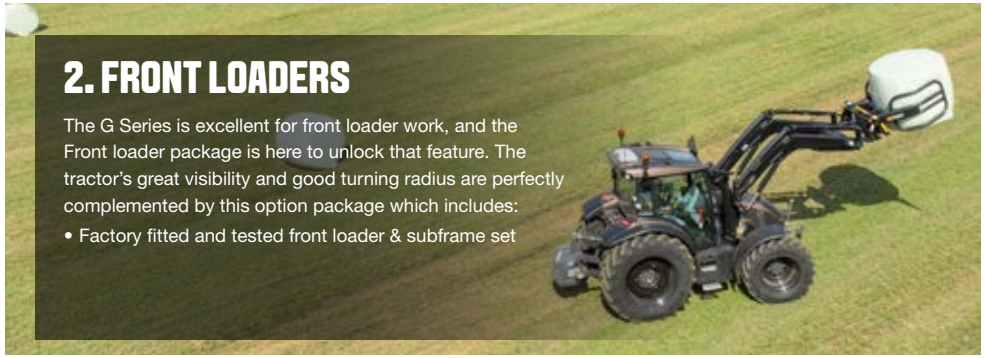

3. CUSTOMISE TO YOUR NEEDS

Our full range of option packages can be found on our website. Scan the QR code for more information and to see our current offers. Alternatively, contact your local Valtra dealer to find the best options and option packages to support your work

1. OPTION PACKAGES

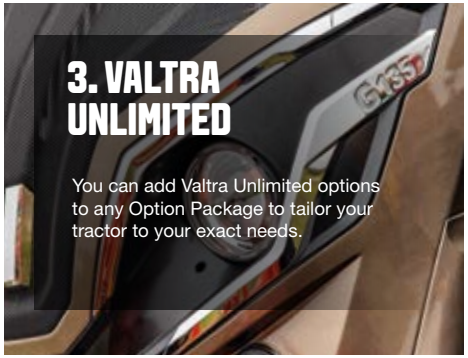

The option packages make it easier to specify a new tractor: nothing important is left out, and the resale price of the tractor is also taken into account. When purchased as a package, the equipment is less expensive than when ordered separately. Best of all, the option packages do not limit you from selecting additional features from Valtra Unlimited.

2. FRONT LOADERS

The G Series is excellent for front loader work, and the Front loader package is here to unlock that feature. The tractor's great visibility and good turning radius are perfectly complemented by this option package which includes:

- Factory fitted and tested front loader & subframe set

3. VALTRA UNLIMITED

You can add Valtra Unlimited options to any Option Package to tailor your tractor to your exact needs.

YOU FIND THE WORK. WE'LL FIND THE WAY.

When you choose a Valtra machine, both your tractor dreams and real, unique requirements can be met and fulfilled. **Valtra Unlimited** means your own individual tractor built according to specifications given by you, with the design and comfort that you need to perform in any environment. Whether you are looking for a tractor for road maintenance or municipal tasks, or if you are in search of specific features for farming or other purposes, Valtra Unlimited is the way to achieve it. It is your working machine for a reason.

With Valtra Unlimited, the possibilities really are just that – unlimited. What do you need? What have you been dreaming of? Done and done. We make it happen. With Valtra Unlimited, your tractor becomes a reflection of your needs and style. Whether it's a custom paint job for municipal or authority use - or a bold personal statement - your tractor will stand out. For the interior, Valtra Unlimited offers a brand new interior option with dark interior panels and trimming for the A- and C-pillars, integrated A-pillar speakers, RAM ToughTrack rail, and ambient roof lighting with the Unlimited logo. The new interior option with upgraded radio and built-in tweeters delivers superior sound. Durable leather steering wheels and seats ensure comfort and complete the premium feel. Valtra Unlimited offers features such as a foldable corner table to the right side of the steering column and a phone holder with a wireless charger for your best possible working comfort. Valtra Unlimited ensures that your needs are met and special requests can be fulfilled quickly.

FACTORY FITTED

All the accessories and equipment fitted by Valtra Unlimited are covered by the factory warranty. We also supply all the servicing and spare parts for them. The accessories and equipment available from Valtra Unlimited include additional lights and other safety features, a central lubrication system, audio systems with touchscreen radio that support Apple CarPlay and Android Auto features, and much more.

You don't just work hard - You work smart.

You constantly work to improve efficiencies in workflow. Managing your business to be profitable and sustainable. Crops, clients, and livestock all need constant attention, and your time is precious. You understand that you need the right power to get tasks done, but also the right data to be able to do it efficiently.

Whether you manage one tractor or a fleet, you demand uninterrupted

connectivity and maximum uptime. You need to know where your machines are, what they are doing, and how they are doing it to plan for your efficient and sustainable business. You deserve a partner who understands this and works with you at every stage.

That is why you trust Valtra.

We work hard to make hard work easy.

We make machines that are tough on the outside and smart on the inside.

Our machines are built to last.

Built to work. Built for you.

YOUR WORKING MACHINE

VALTRA is a worldwide brand of **AGCO**.
