YOUR WORKING MACHINE

READS YOUR MIND

THE 6TH-GENERATION T SERIES SO INTUITIVE, IT PRACTICALLY READS YOUR MIND

We set out to redefine what a machine can do for you and then took it further. Meet the 6th generation T Series: the ultimate in user experience and the perfect match for your business. It's powerful when you need muscle, precise when you need control, and customised to fit the way you work. It learns your routines, optimises your settings, and anticipates what comes next, so driving feels almost like science fiction. But it isn't. This is the future of farming: you in command, with the T Series as your right hand.

TWO LEGENDS REBORN

THE 6TH GENERATION T SERIES AND SMARTTOUCH GEN2

The 6th generation T Series redefines productivity without complexity, combining next-generation driveline engineering with an all-new SmartTouch Gen2 interface. The result is a tractor that's easier to operate, more efficient in real work, and designed to reduce fatigue and errors across long days.

From farms to municipalities and forestry, the T Series adapts to the task.

THE 6TH GENERATION VALTRA T SERIES PROVIDES:

- Low running costs combined with high performance
- Seamless tools for field, tractor & input data management
- Easy-to-use smart farming features to boost efficiency
- Instant power delivery and low fuel consumption
- High operating comfort and versatility for all tasks
- Customised solutions for your operations

THE MULTIPURPOSE T SERIES

Frontloading
Nimble control where precision matters.

Heavy draft and field power
Pulling strength for serious work.

Road transport
Speed and stability for long hauls.

PTO plus precision and slow-speed tasks
Control for demanding PTO and accurate work.

DESIGNED TO WORK.
BUILT TO LAST.

6TH GENERATION T SERIES

CUSTOMISED FOR YOU.
MADE IN FINLAND.

170-245 HP
New AGCO Power Core75 Engine

LOW REV
Max. Torque at 1000 r/min

5% LOWER FUEL
Compared to previous generation*

SMART POWER MANAGEMENT
Eco / Normal / Power modes.

4.9 M
Turning radius

FULL AIR SUSPENSION
AIRES front axle suspension and optional full cab AutoComfort air suspension

CVT OR POWERSHIFT
Industry-leading transmissions with intelligent shifting

FAST STARTUP
Quick boot-up

WIRELESS TASK MANAGEMENT
With PTx FarmENGAGE

CUSTOMISABLE
Fully configurable drive display and driver/task user profiles

10X
10 times processing power

SMART
Fully integrated smart farming features

SMARTTOUCH GEN2

33% BIGGER
New intuitive user interface with responsive 12” touch screen

LESS SET UP. MORE WORK DONE.

SmartTouch Gen2 is built for faster startup, clearer layouts, and profiles that remember your preferred settings. Less time hunting through menus means fewer interruptions, and more time actually working.

MORE WORK PER LITRE

The new AGCO Power CORE75 and Valtra Power Management deliver usable torque, while helping you avoid unnecessary revs and adjustments. The result is efficient, steady performance across real operating conditions.

STAY SHARP FOR LONGER

Comfort and visibility aren't luxuries; they're productivity. With a quiet cab, clearer sightlines, integrated camera support and intuitive controls, the T Series helps you work with less strain and more confidence, hour after hour.

* ~5% improved fuel economy based on Internal CORE75 materials vs AGCO Power 74HD, alongside best point SFC values of 188 g/kWh (CORE75) and 196 g/kWh (74HD). Actual savings depend on duty cycle and operating conditions.

VALTRA CUSTOMISE AND QUOTE — YOUR T SERIES. YOUR WAY.

2. **Explore the customisation options and configure your perfect T Series.**
3. **Get a personalised quote from your local dealer — and move forward with ease.**

SCAN TO START — VALTRA CUSTOMISE AND QUOTE

PREFER TO FEEL IT FIRST? SCAN TO REQUEST A TEST DRIVE

TAKES JUST A FEW MINUTES. NO OBLIGATION.

ONE WAY OF WORKING ACROSS YOUR WHOLE FARM

THE ERA OF ECOSYSTEMS STARTS HERE

Managing machinery, operators, field records and business data shouldn't create extra work. PTx FarmENGAGE, the next generation of farm operations management software, connects your machines, jobs and records into one workflow, even across **mixed fleets.**

PLAN

Plan once with PTx FarmENGAGE
Send jobs, boundaries and prescriptions directly to the tractor, even across mixed fleets.

Less admin.
Fewer mistakes.

WORK

Work confidently with SmartTouch Gen2
The right information appears when you need it on the high-resolution 12” display.

Less setup.
More time working.

INTEGRATE

Work better together.
Compatible systems and TIM help tractor and implement operate as one and exchange data across platforms.

Consistent performance with less effort.

MANAGE

Keep control with Valtra Connect.
Monitor machine status, service needs and performance remotely.

More uptime.
Better decisions.

SIMPLIFY DATA TRANSFER AND SHARING

Move data between cab and office wirelessly

PLANNING AND COMMUNICATION

Task and prescription map sending

ON DEMAND STATUS DATA

Realtime information to maximize efficiency

CENTRAL DATA MANAGEMENT

Automatic data sync between office and machine

THE SMARTEST OPERATOR EXPERIENCE

Designed to reduce complexity, not add to it.

SMARTTOUCH GEN2

The most intuitive tractor interface on the market got even better!
The new 12” SmartTouch Gen2 terminal is a ground-breaking change in usability. Familiar yet far better! With a smartphone-like interface, drag-and-drop logic, fully configurable display layouts and up to 16 quadrants of information, every operator gets instant clarity over the job at hand.

The system runs on a new, faster architecture, allowing guidance, ISOBUS, cameras, and tractor settings to run simultaneously with zero delay. All key operations are accessible in fewer than three taps.

SMARTTOUCH GEN2:
BIGGER BRAIN. BIGGER VIEW.

A new 12” customisable touchscreen.

Key functions where you expect them, so you move faster with fewer distractions.

FAST START-UP:
READY BEFORE YOU ARE.

Fast boot-up

Gets you working sooner - especially when days are tight, shifts change quickly, and tasks change fast.

MORE PROGRAMMABLE CONTROLS:
YOUR FAVOURITES AT YOUR FINGERTIPS.

Up to 10 programmable buttons and 2 lever cruise controls.

Your most used actions are quicker, so you stay in flow, even on long days.

UP TO 16 VIEWS IN ONE GLANCE

Keep the right data visible for the job, so you don't lose time hunting through menus.

SMARTTOUCH GEN2 ADDITIONAL SCREEN

The SmartTouch Gen2 additional screen improves your productivity by displaying integrated cameras, ISOBUS settings and more at an ergonomic level.

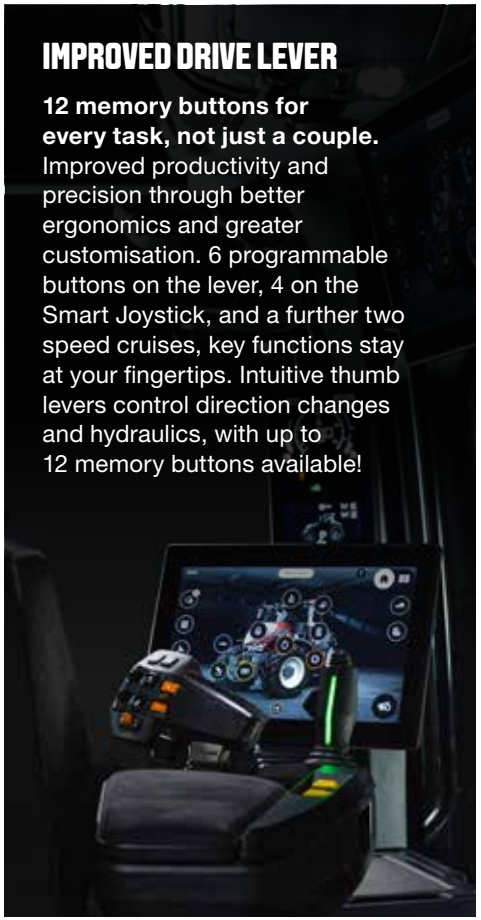

SHORTCUTS THAT MATCH YOUR ROUTINE

Drag-and-drop customisation and shortcuts help you build a workflow that feels familiar.

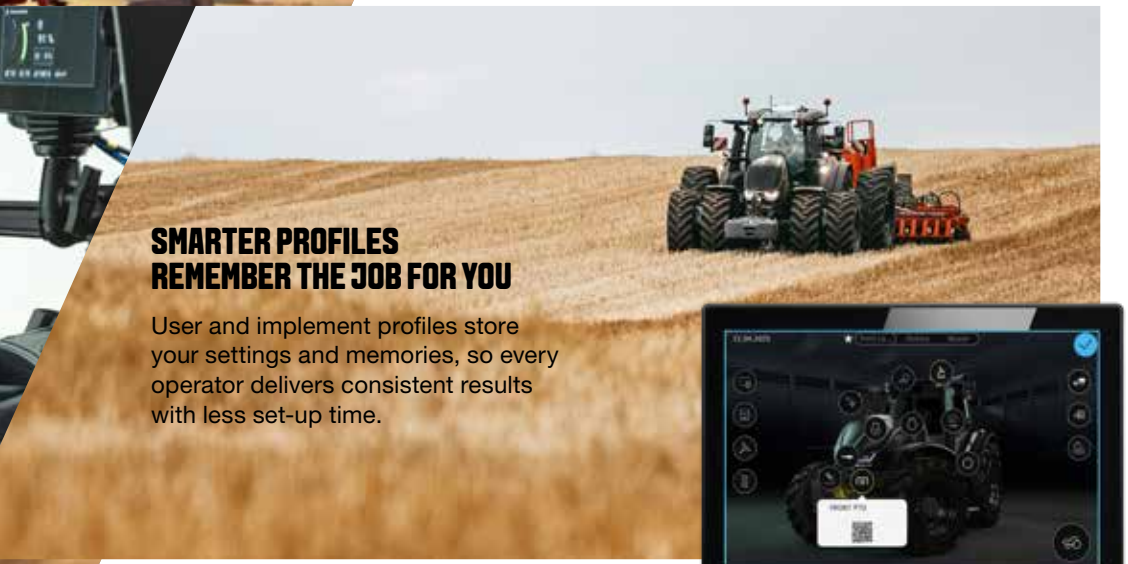

IMPROVED DRIVE LEVER

12 memory buttons for every task, not just a couple. Improved productivity and precision through better ergonomics and greater customisation. 6 programmable buttons on the lever, 4 on the Smart Joystick, and a further two speed cruises, key functions stay at your fingertips. Intuitive thumb levers control direction changes and hydraulics, with up to 12 memory buttons available!

SMARTER PROFILES REMEMBER THE JOB FOR YOU

User and implement profiles store your settings and memories, so every operator delivers consistent results with less set-up time.

BUILT-IN HELP LAYER: LESS LEARNING CURVE, MORE DOING.

The "?" info layer and QR-linked guidance make complex features easier to learn. You get the benefit without needing a manual in your lap.

STRAIGHT-FORWARD ERGONOMICS

ACTIVE GEN2

Everything brought together and in easy reach
Designed to put comfort, control and productivity within easy reach, the new Active Gen2 armrest delivers a practical, more intuitive working environment for everyday operations. It reduces fatigue, helping you work more comfortably, precisely and efficiently, without unnecessary complexity.

RESPONSIVE
DRIVE LEVER CONTROL

Pressure sensitive movement lets you fine tune speed or transmission ratios.

MODULAR SIMPLICITY.
LONG TERM CONFIDENCE.

Future-proof modular design for easy maintenance and upgrades such as the Parker joystick via Unlimited.

MORE PROGRAMMABLE CONTROLS:
YOUR FAVOURITES AT YOUR FINGERTIPS.

Part of the ‘SmartTouch family’. Increase productivity with everything is exactly where you instinctively expect it to be.

CHOOSE SMARTTOUCH GEN2 FOR:

Maximum automation and smart farming

A 12” customisable touchscreen with swipe, tap and drag and drop control

Advanced precision farming (ISOBUS, Valtra Guide, Section Control, VRC, cameras)

A highly customisable interface that adapts to multiple operators and tasks

Fast, future ready technology for complex, data driven work

Available with 10 speed PowerShift and CVT

WHICH ARMREST IS BEST FOR YOU?

CHOOSE THE ACTIVE GEN2 ARMREST FOR:

Simple, tactile control with strong ergonomics

Physical buttons and levers for fast, intuitive operation

Straight access to key tractor functions with minimal learning time

A robust, modular design that’s easy to live with and upgrade

An ideal setup for **everyday work without advanced smart farming needs**

Available with 5- and 10-speed PowerShift and CVT

OPERATING EASE JUST REACHED THE NEXT LEVEL

NEXT-GEN SMART JOYSTICK

Four-way thumb control and integrated shuttle improve comfort and precision. The light bar shows hydraulic activation at a glance. Available for **SmartTouch Gen2** and **Active Gen2** armrests.

SMART A-PILLAR DISPLAY

It shows what matters, when it matters, helping you stay focused. Adjustments on the **SmartTouch** or **Active** armrest appear instantly in your line of sight.

INTEGRATED SHUTTLE AND PARK BRAKE

Work the way you want by engaging the forward/reverse shuttle from any of three locations: The steering column, drive lever or joystick.

SCAN TO BOOK A DEMO

OPERATOR COMFORT AND VISIBILITY

COMFORT THAT KEEPS YOU SHARP. VISIBILITY THAT KEEPS YOU PRECISE.

The 6th-generation Valtra T Series is designed to feel easy to place, confident to control and comfortable to work in, all day, every day. Whether you're manoeuvring in tight yards, working headlands or covering long transport distances, the tractor responds intuitively and stays predictable under load.

This balance is no accident. The T Series combines the agility and sightlines you'd expect from a smaller tractor with the power, stability and torque of a much larger machine. The result is a working environment that reduces corrections, limits fatigue and helps you work accurately, even as conditions, tasks and light change.

Less fatigue means fewer mistakes, safer operation and more consistent work, day after day.

SCAN TO READ MORE ABOUT BETTER WORK HEALTH AND SAFETY

YOUR COMFORT AT A GLANCE
(WITHOUT STRAINING YOUR NECK)

69 DB
A quiet 69 dB cabin. Less fatigue on long days.

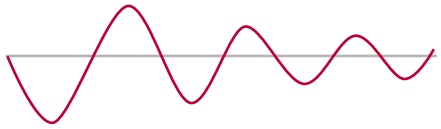

4.9 M
Class-leading 4.9m turning radius. Easier headlands and yard work.

6.22 M²
6.22 m² window area. See the work clearly and safely.

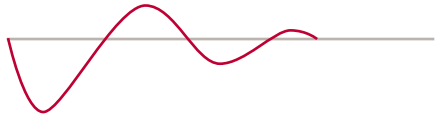

"DRIVING ON AIR" COMFORT

Valtra is the only brand to offer a full air suspension experience. AIRES front axel suspension and the optional AutoComfort air suspended cab reduce fatigue, so comfort becomes output.

Hydraulic suspensions travel

AIRES+AutoComfort suspensions travel

COMFORTABLE SEAT OPTIONS

Stay focused with air-suspended seats that offer automatic weight adjustment, heating, cooling and premium lumbar support. The ULTRA seat adds climate control and massage to help keep you performing at your best.

SkyView (with Valtra Guide) option
Confident loader work with up-ward visibility where you need it.

Integrated cameras
Factory-fitted cameras make your work safer and easier.

Intelligent light automatics & programming
Consistent illumination as conditions changes, helping you work accurately after dark.

Valtra Unlimited (tailored visibility & safety upgrades)
Add options like enhanced work lights, camera solutions and Unlimited VIEW hazard detection as a factory-fitted package with service/warranty from one place.

BETTER VISIBILITY

Clear sightlines that let you focus on the job. The sloping bonnet and large glass area give you a confident view of the tractor and implement in every direction.

365-DAY VISIBILITY, NOT JUST GOOD-WEATHER VISIBILITY

The T Series is designed for 365 day sightlines, so low sun angles and changing seasons don't slow you down. Effective wipers and well designed cab glazing like the heated acoustic windshield, help keep your view clear in rain, dust, or snow so you stay relaxed, in control, and focused on the job.

INTEGRATED CAMERAS EXTEND YOUR FIELD OF VIEW

Factory fitted camera support, including a roof level front camera extends visibility beyond natural sightlines, helping you track critical areas and blind spots with more confidence, accuracy and safety. Add further camera solutions through Valtra Unlimited to match your work.

SMART LIGHTING THAT ADAPTS TO HOW YOU WORK

High output LED work lights give clear, even visibility around the tractor so you can work accurately after dark, reduce missed spots and finish jobs on time. SmartTouch Gen2 lighting control lets you direct light only where it's needed.

Switch or automate lights by zone, such as turning one side off beside a combine to reduce glare and distraction. Saved operator and task profiles keep visibility consistent across jobs, improving comfort, precision and safety during long days and nights.

LIGHTING AUTOMATION

Advanced lighting automation helps you see clearly and work confidently in changing conditions without additional input.

- Cornering lights come on automatically when steering.
- Highway beam function enables automatic control of multiple work lights.
- Beacon light automatically turns on when traveling more than 25 km/h.
- Configurable reversing lights.

TwinTrac increases productivity 12% and efficiency 11% and reduces strain.*

TWINTRAC (REVERSE-DRIVE SYSTEM, OPTION)

TwinTrac increases productivity, enabling 12%* faster work and 11%* fuel efficiency while mowing and 10%** faster almond and pistachio harvesting while reducing driver head and neck turns from 95% to 0** for less strain, lower stress, and fewer sick days. With no need to turn off the tractor or even get out of the seat, you spend more time achieving your tasks.

SCAN TO CUSTOMISE AND QUOTE

POWER THAT WORKS WITH YOU

PREDICTABLE POWER. CONSISTENT TORQUE. EFFICIENT OUTPUT.

The new AGCO Power CORE75 delivers efficient power with consistent, dependable torque at the speeds you actually work.

With flat power and torque curves and Eco, Normal and Power drive modes, the tractor automatically optimises itself for the task, so you make fewer adjustments, use fuel more efficiently, and get steady performance in real working conditions.

245 HP
Up to 183 kW / 245 hp at 1900 rpm

1184 NM
Up to 1184 Nm at 1500 rpm.

188 G/KWH
Excellent fuel economy
(Best-point SFC: 188 g / kWh)*

57 KM/H
Up to 57 km/h transport speed

380 L
More work between fuelling (380 L fuel tank)

+ 26%
Better cooling and component life
+ 26% increased oil capacity

HVO
HVO-compatible
(DIN EN 15940)

AGCO POWER CORE75 ENGINE

Up to ~5% better fuel economy — more work per litre across the working range.*

The new AGCO Power CORE75 engine delivers a major leap in performance and efficiency for the 6th-generation T Series. Higher power and torque combine with smoother, more stable pulling across all working conditions. An EGR-free, long stroke, fuel-efficient design, improved cooling and intelligent Valtra Power Management support excellent fuel economy*, while the broad low-RPM torque range and flat power curve enhance drivability, comfort and productivity. Efficient power delivery doesn't just reduce fuel use, it also helps lower emissions across everyday working conditions.

*~5% improved fuel economy based on Internal CORE75 materials vs AGCO Power 74HD, alongside best point SFC values of 188 g/kWh (CORE75) and 196 g/kWh (74HD). Actual savings depend on duty cycle and operating conditions.

POWER AND EFFICIENCY – AUTOMATICALLY

Valtra's new power management offers easy ways to balance the power and efficiency of the AGCO Power CORE75 engine depending on your work. Easily change between drive modes via either the SmartTouch Gen2 or Active Gen2 armrests.

ECO

Best for fuel economy

Use when power demand does not vary much or too quickly

NORMAL

Best for automatically balancing power and economy

Use when power demand changes often

POWER

Best for optimal power delivery

Use when power demand varies greatly and rapidly

SMARTER POWER. SMOOTHER WORK.

THE NEW T SERIES TRANSMISSIONS.

The 6th-generation T Series lets you choose the transmission that fits your work. All come with a robust design and long service intervals (up to 2400 hours). Your choice of a 5- or 10-step Powershift or CVT, each engineered for smooth control, strong pulling power and lower fuel consumption. Across all options, shared features simplify everything from tight yard work to long road hauls, while flat power and torque characteristics reduce unnecessary shifting and keep the tractor stable, comfortable and productive throughout the day.

LEADING AGCO CVT TRANSMISSIONS

The AGCO ML 180 CVT provides smooth, uninterrupted power delivery for the smoothest ride, with 2 ranges and up to 57 km/h, always keeping full torque available (particularly valuable for climbing and PTO heavy work).

WHICH TRANSMISSION IS BEST FOR YOU?

CONTINUOUSLY VARIABLE (CVT)

Seamless. Effortless. Precise.
Best for highly variable work, PTO tasks and maximum comfort.

- No gear steps — continuous drive.
- Up to 57 km/h, always optimised
- Precise and stable low-speed control
- Highest comfort. Lowest operator workload.
- For Active Gen2 armrest or SmartTouch Gen2

POWERSHIFT TRANSMISSIONS

The advanced 10PS delivers high performance with fast, refined acceleration and transport speeds of up to 57 km/h, enabling quiet, low rev road travel and effortless pulling under load. Smooth step changes, creeper capability and intuitive operation make it easy to live with, easy to train on and ready for demanding everyday work.

10 STEP POWERSHIFT (10PS)

Smooth. Fast. Refined.
Best for mixed work and frequent transport, with low rpm road driving.

- Closer gear steps for smoother acceleration.
- Up to 57 km/h at lower engine rpm
- High efficiency at low speeds
- Higher comfort and performance
- For Active Gen2 armrest or SmartTouch Gen2

CTIS — CENTRAL TYRE INFLATION SYSTEM

With its integrated air system, the T Series supports the Central Tyre Inflation System (CTIS) to optimise tyre pressure for road and field work. An optional dual compressor speeds up pressure changes, keeping productivity high in mixed workdays.

1.8% higher field efficiency

17% less soil compaction

7% better fuel efficiency on the field and 2% on the road.*

SCAN TO CUSTOMISE AND QUOTE

*According to field research by Valtra and the AGCO Agronomy Team

AGILITY & VISIBILITY LIKE 4-CYLINDER TRACTOR. POWER & TORQUE LIKE A BIGGER TRACTOR.

A QUICKER TURNAROUND THAN THE COMPETITION!

4.9M

The 6th-generation T Series has one of the best turning radius on the market* at just **4.9 m**. Turn precision into productivity gains while reducing strain.

*Based on Valtra internal benchmarking

BETTER GRIP

The **4-wheel Drive Assistant** improves grip and control in loader work, reduces slip and wheel spin on the field, and improves stability and safety.

GREATER CONTROL

The all-new braking system with intelligent air management and standard Steering Brake technology delivers stable transport, precise manoeuvrability and reliable stopping power, helping you work efficiently in the field and with confidence on the road.

SMARTER TRAILER HANDLING

Automatic Steering Axle control helps trailers follow smoothly through turns, improving stability, reducing tyre wear and making transport easier and more predictable.

HYDRAULICS, LINKAGES, AND LOADER PERFORMANCE

POWER YOU CAN FEEL. CONTROL YOU CAN TRUST.

The Valtra T Series delivers the hydraulic muscle, precision control, and implement versatility modern farming demands, giving you smoother loader work, stronger lift performance, and faster, frustration free operation in every task.

BUILT FOR HARD WORK. DESIGNED FOR EASY WORK.

- Separate hydraulic and transmission oils support reliable performance and longer service intervals.
- Configurable hydraulic functions and buttons for intuitive, personalised control.
- Ergonomic mudguard controls make exterior hydraulic operation easier.
- Optional decompression levers and self-closing coupler flaps for cleaner, safer working.
- A hydraulic oil heat exchanger helps maintain stable performance under continuous load.

95 KN
Maximum rear lift

6
Up to 6 rear hydraulic valves with decompression levers

75 L
Up to 75 l oil capacity (exportable)

200 L/M
Oil flow rate up to 200 l/m

HYDRAULIC ASSISTANT

- Helps prevent stalling, supporting safer lifting while driving.
- Improves efficiency by speeding up work cycles, reducing downtime.
- Reduces effort and fatigue by automatically managing engine speed.
- Maintains traction and lifting performance when conditions or loads change.

SMOOTHER, FASTER LOADER WORK

The 6th generation T Series is built for intensive front loader work, even with heavy or changing loads. Cylinder optimised spool geometry delivers precise control without jerks or overshoot, while flexible front valve options and high output pumps keep loader cycles fast, accurate and responsive.

CONSISTENT RESULTS. AUTOMATICALLY.

New **Ground Speed Hydraulics** automatically adjusts oil flow as driving speed changes, keeping implements consistent with less manual input, and preventing under- and over-application. Whether spreading, unloading or transporting, you get smoother operation, less waste and more productive days.

SMART FRONT LINKAGE CONTROL

Smart Front Linkage Control automatically maintains the right ground pressure for the task, improving traction, steering precision and work quality, protecting implements and reducing wear in challenging conditions.

SMART FARMING AND CONNECTIVITY

PRECISION FARMING MADE INTUITIVE.

Tight margins and ever more complex fieldwork mean farmers can't afford wasted passes or fiddly set ups. The 6th-generation Valtra T Series makes smart farming genuinely usable: SmartTouch Gen2 brings guidance, ISOBUS and cameras into one fast, intuitive, interface, that's easy to use.

SMART FARMING THAT MAKES YOUR WORK EASIER

With **Valtra Guide**, **Wayline Assistant**, **Auto U-Pilot**, **SmartTurn**, **Section Control** with up to 144 sections and for up to five inputs you can cut overlap, reduce input waste and lower operator stress and reduce operational errors.

In tests, Valtra's smart farming technology **reduced operator stress by 13%.***

Prescription based variable tillage has shown savings of **over 5 litres of fuel per hectare** and more than **1 hectare per hour** higher field efficiency** — exactly the kind of gains these tools help deliver.

PRECISION & IMPLEMENT CONTROL

Guidance + ISOBUS in one view: Precision without juggling screens.

The new configurable display is designed with drag and drop simplicity of up to 16 views so ISOBUS, Valtra Guide, and Wayline Assistant guidance coverage, can be used in one display, keeping work accurate and simpler to manage.

VALTRA GUIDE

The right level of accuracy for the way you farm.

SUBMETER (±20 CM)

Reduce overlaps. Save inputs.
Ideal for tillage, fertilising and spraying, Valtra Guide Submeter helps you work more accurately, reduce missed areas and make every litre, kilo and pass count.

CENTIMETER (±2 CM)

Precision that pays back.
For seeding, planting and other high-accuracy operations, Valtra Guide Centimeter delivers repeatable lines, season-after-season consistency, and the highest level of input efficiency and productivity.

AUTO TASK

Automatically starts the right task when you enter the field and records work without extra driver input.

Valtra Guide is the best tractor autoguidance on the market.***

IMPLEMENT SLOPE COMPENSATION

Implement Slope Compensation helps keep semi-mounted implements accurately on track, reducing sideways drift and the need for constant steering corrections. The result is cleaner passes, more consistent work and less effort for the driver.

SCAN TO READ MORE ABOUT VALTRA SMART FARMING

*According to research by Jyväskylä University of Applied Sciences and Valtra. ** According to research by Väderstad, Valtra, and the AGCO agronomy team. ***According to a 2023 independent study by Koneviesti, Trekker, Bedre Gårdsdrift, and TraktorTech

TRACTOR IMPLEMENT MANAGEMENT (TIM)

Let the tractor and implement work as one. TIM allows compatible implements to automatically adjust key tractor functions such as speed and hydraulics, helping the tractor and implement stay in sync for consistent performance, higher productivity and less operator effort.

NAVIGATION SUPPORT

Quick field navigation and location sharing with QR codes and location links, help you, contractors, and partners arrive at the right place faster, improving coordination, reducing downtime and keeping work moving.

EASY-TO-USE HELP FUNCTION

Built-in guidance, video tutorials and step-by-step wizards help you learn new features, complete tasks with confidence and spend less time searching for answers.

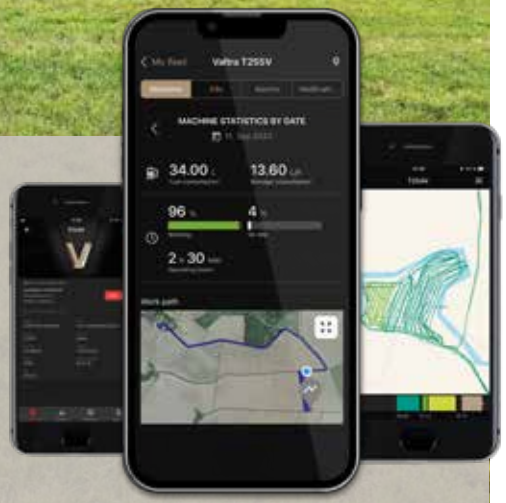

- **Get started faster** with guided setup and task support.
- **Reduce mistakes and downtime** with clear, step-by-step assistance.
- **Learn advanced features more easily** through videos and on-screen guidance.
- **Stay productive with help available exactly when you need it.**

VALTRA CONNECT

Stay in control.
Wherever work takes you.

Valtra Connect helps you keep an eye on your tractors, even when you're not behind the wheel. Track machine performance, monitor service needs and stay one step ahead of maintenance, helping you maximise uptime, plan more effectively and make smarter decisions every day.

PTX FARMENGAGE ENABLED

With Valtra and **PTx FarmENGAGE**, farming enters an era of true ecosystems, where machines, people and data work as one.

PTx FarmENGAGE connects planning, execution and documentation in one system, even across mixed fleets. Work stays aligned regardless of brand or technology generation.

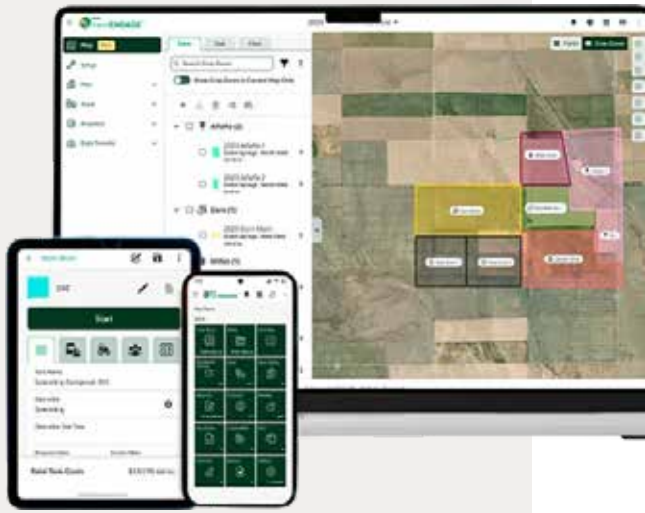

You prepare jobs, boundaries, guidance lines and prescriptions once, send them straight to connected machines, then sync completed work back automatically, keeping everything in one place and up to date.

The result: a smarter, simpler, scalable operation - **one ecosystem, one workflow**, across the whole farm.

FarmENGAGE Lite Package
Entry-level telemetry package ideal for customers who want basic fleet tracking and resource management without full task management capabilities. Best suited for machines that won't use wireless task management.

FarmENGAGE Package
Mid-tier package for customers who need wireless task management "lite" – the ability to send resources, prescriptions, and receive completed task data wirelessly. Good for customers who may want to upgrade to Premium FarmENGAGE later or for a farmer that already has an operations/premium license.

FarmENGAGE Premium Package
Full connected functionality for customers wanting comprehensive farm management. Ideal for operations requiring complete task management, detailed record-keeping, profitability tracking, and advanced agronomic tools.

FarmENGAGE is free for the first 5 years!

EASY CUSTOMISATION

CUSTOMISATION ISN'T SOMETHING YOU ADD LATER. IT'S SOMETHING YOU DESIGN IN.

DESIGNED AS A SYSTEM, NOT AN AFTERTHOUGHT.

The 6th generation Valtra T Series makes customisation part of the design, not an afterthought. With production line options and Valtra Unlimited factory solutions, you can tailor one tractor to your farm, contracting profile or specialist sector, from fieldwork and transport to forestry and municipal use.

Choose from **almost limitless factory-approved configurations** covering lighting, hydraulics, protection, comfort and technology. The result is a tractor engineered for your work from day one, helping you avoid aftermarket compromise, downtime and warranty complexity.

When you’re happy with your configuration, request a personalised quote from your local dealer and move forward with confidence.

SCAN TO START.

VALTRA UNLIMITED

One order, one build, one warranty and one service partner, ready to deliver real productivity, safety and business value from day one.

What is Valtra Unlimited

Valtra Unlimited is a factory customisation system where specialists turn your requirements into a fully engineered machine that improves efficiency, safety and productivity.

Why choose Valtra Unlimited

Unlimited tailors one tractor to your exact needs, helping you do more with ease, boost productivity and add real business value without paying for features you do not use.

How the Valtra Unlimited concept works

Explore options in advance, including the **3D configurator/Virtual Showroom**, then turn your plan into a factory fitted build tailored to your work, making customisation simple and efficient.

ARABLE

More output from every hectare
The T Series can be tailored for maximum field efficiency and crop performance. Solutions such as CTIS, optimum ballasting and application-specific tyres help reduce compaction, improve precision and lower input costs, so every hectare works harder for your business.

AIRPORT MAINTENANCE

Turn one tractor into a year round airport tool
With factory-fitted, airport-specific equipment, the T Series becomes a dedicated airport tool. One Unlimited-configured machine handles snow clearance, sweeping and mowing, reducing fleet complexity without compromising capability.

DAIRY & LIVESTOCK

One tractor. Every task. Every day.
With Valtra Unlimited, the T Series can be optimised for livestock operations. Loader-ready solutions, hydraulic automation, front linkage control and tailored visibility packages help make feeding, handling and transport work faster, easier and more productive throughout the year.

FORESTRY

Tough work, rough terrain
Unlimited builds on core Valtra strengths such as TwinTrac and SkyView, integrating forestry-specific protection, mounting solutions, tyres and lighting at the factory. The result is a purpose-engineered forestry tractor, safer, more durable and built for demanding terrain.

MUNICIPALITY

365 day multi purpose vehicle
Configured through Valtra Unlimited, the T Series can be engineered for municipal regulations and year-round use. Factory-approved safety and mounting solutions let one tractor replace multiple specialist machines, maximising utilisation with no compromise on compliance or reliability.

SCAN TO CONFIGURE YOUR TRACTOR

COMMITTED TO QUALITY OF SERVICE

A TRACTOR THAT READS YOUR MIND SHOULDN'T STOP DOING SO ONCE THE ENGINE IS OFF.

The 6th-generation T Series is designed as a complete experience, where the machine, digital services and dealer support work together seamlessly, so ownership feels as intuitive as operation.

Built to be easy to live with as well as easy to drive, the T Series combines smart connectivity, predictable service cover and flexible finance into one joined-up system. The result is fewer surprises, clearer planning and more confidence, season after season.

DEALER SUPPORT DESIGNED TO PROTECT YOUR UPTIME INCLUDES:

- ✓ Guaranteed parts availability
- ✓ Courtesy and rental machines
- ✓ Professional machine handover and smart farming set up
- ✓ Trained product and service specialists
- ✓ Advanced diagnostic tools
- ✓ Proactive maintenance
- ✓ Expert finance advice

The tractor learns your routines, and the ecosystem helps you keep it ready for the next job.

ENGAGE, CARE & GO. YOUR TRACTOR. YOUR DATA. YOUR CONTROL.

Engage, Care & Go is our customer promise: keeping you in control of your machines, your costs and your uptime, with no hidden surprises. Extending working life, planning maintenance and avoiding unplanned downtime isn't just good for your business, it also makes better use of resources over the tractor's lifetime.

ENGAGE

TRACTOR DATA, INFORMATION AND SERVICES.

With Valtra Engage telemetry, everyday tasks become simpler: checking fuel level remotely, being alerted for the next service, accessing records of past work, planning ahead and optimising workflow. With the Valtra customer portal, you have **24/7 access** to services, contracts and tutorials, staying connected to your fleet anywhere, anytime.

FarmENGAGE further reduces admin by pushing the right job data to the terminal and pulling completed work records back automatically, adding fleet level visibility where needed.

CARE

FACTORY EXTENDED WARRANTY.

Fix your costs for **up to five years or 6,000 hours** and stay in control. Choose the level of excess that suits you and stay protected for repair costs — giving you total peace of mind.

GO

MAINTENANCE CONTRACT.

Maximise uptime with a Valtra Go service package for **up to 10,000 hours**. The maintenance contract with your dealer helps deliver reliable operation, aiming for **no unscheduled downtime, only uptime**.

AGCO FINANCE

AGCO FINANCE: SIMPLE, IN ONE PLACE

With the **Rent**, **Buy**, **Lease** programme, a financing solution can be built around your individual needs.

Through your dealer you can access a full range of finance solutions in one clear package, without coordinating multiple providers.

Finance solutions are provided through AGCO Finance and arranged via participating dealers; availability and terms vary by market. Connect, Care & Go service and warranty packages vary by country and machine specification. Ask your dealer for locally available options.

Exportable Oil CVT	Liter	75

You don't just work hard - You work smart.

You constantly work to improve efficiencies in workflow. Managing your business to be profitable and sustainable. Crops, clients, and livestock all need constant attention, and your time is precious. You understand that you need the right power to get tasks done, but also the right data to be able to do it efficiently.

Whether you manage one tractor or a fleet, you demand uninterrupted connectivity and maximum uptime. You need to know where your machines are, what they are doing, and how they are doing it to plan for your efficient and sustainable business. You deserve a partner who understands this and works with you at every stage.

That is why you trust Valtra.

We work hard to make hard work easy.

We make machines that are tough on the outside and smart on the inside.

Our machines are built to last.

Built to work. Built for you

Because when your tractor understands how you work, everything else gets easier.

YOUR WORKING MACHINE
